

John Warner – DOD HFE TAG #63 Tempe, AZ  
SubTAG: Army Caucus

We had 8 attendees.

We had a discussion of the following:

1. TAG 64 Theme – An Army Representative for Plenary Panel who might have something to say about the role of HSI in the commercialization of Space across Government and Industry. We were too few to come up with a concrete suggestion, but agreed to think about it and make queries. I will send out the Theme to Army TAG folks and ask for suggestions. My aim is to come up with a suggestion by the end of the month.
2. New Army Rep – Again, we were too few to effectively execute this. We plan on dealing with this at TAG 64. I will continue to serve as Army Rep until this can be resolved.
3. TAG 65 Army – This will also have to be handled via email. It had previously come up that Natick was a good choice for a TAG in May and I believe Dawn Woods had been very supportive of the idea. I will follow up with her and solicit for approval or other ideas among the Army Tag membership. I am aiming to also resolve this by the end of the month.
4. Katrina May reported on the SBIR opportunities that Dylan Schmorrow has presented and urged Army folks to get involved and spread the word.

After a general discussion in which everyone seemed pleased with the current TAG, we adjourned.
